Work Experience

Senior Front-end Developer — A5 Labs — United States, fully remote — 08.2025 - Present

- Owned front-end initiatives in an AI-first product, turning ambiguous product ideas into implementation-ready specs (user flows, edge cases, acceptance criteria) and taking them through to production release.
- Designed reusable component APIs and design-system foundations shared across 4+ internally owned applications, documented in Storybook.
- Shaped REST API contracts and behaviour with backend and AI teams, and covered features with unit, component and end-to-end tests running in CI.
- Worked agentic and spec-driven with Claude Code and Cursor to generate, refactor and test code, critically reviewing the output for correctness, performance, accessibility and architectural fit.
- Stack: Vue.js, TypeScript, Web Components, Lit, Vite, Pinia, Tailwind CSS, Radix Vue, Vitest, Playwright, Storybook, GitHub Actions

Senior Front-end Developer — Cloud Nine AB — Stockholm, fully remote — 09.2021 - 07.2025

- Owned front-end delivery for 6+ client products, from requirements and technical planning through implementation, QA and production release.
- Built and maintained automated test suites with Testing Library and Playwright, so client releases shipped with confidence.
- Diagnosed and fixed page-load and rendering performance problems, and monitored production with Sentry to catch and resolve issues where front-end and back-end behaviour diverged.
- Worked directly with clients, product stakeholders and designers to resolve UX and scope trade-offs before development, planning front-end work across parallel client workstreams.
- Ran technical interviews for front-end hires and helped open Cloud Nine's Polish team as its first Polish employee.
- **Stack**: React, TypeScript, Next.js, Remix, styled-components, Tailwind CSS, Testing Library, Playwright, Storybook, Sentry

Front-end Developer — Genesis Global Ltd — Malta / Gdańsk, Poland, hybrid — 03.2019 - 08.2021

- Developed customer-facing and internal front-end applications for the iGaming industry, with a focus on performance, usability and reliability.
- Built an internal React data-management platform for managing a catalogue of thousands of casino games, establishing reusable patterns for scalability and performance.
- Led the migration of the main legacy JavaScript application to React and Next.js.
- Collaborated with design and product stakeholders to deliver consistent UX across established products.
- **Stack**: React, Redux, Next.js, JavaScript, HTML5, Sass

Front-end Developer + Designer — Spectrum Brands UK Ltd — Manchester, United Kingdom — 10.2017 - 02.2019

- Owned the design and front-end development of a new Russell Hobbs website, from UX and visual implementation through front-end architecture and CMS integration.
- Built a scalable front-end foundation designed to support future e-commerce expansion and ongoing digital growth.
- Worked across development and design, producing campaign assets, newsletters, banners and digital advertising aligned with brand and commercial objectives.
- Collaborated with internal stakeholders to translate brand and content requirements into consistent, responsive digital experiences.
- **Stack**: Vue.js, JavaScript ES6+, HTML5, Sass, Bootstrap, jQuery, Laravel, Velocity.js

Web Developer + Designer — Cocogreen UK Ltd — Manchester, United Kingdom — 06.2016 - 09.2017

- Designed and developed websites for Cocogreen and Zoobedding, combining front-end implementation with brand and visual design.
- Built an in-house JavaScript solution to automate the generation of technical drawings in PDF format, reducing manual work and improving internal workflow efficiency.
- Produced digital marketing assets including newsletters, banners and advertisements to support brand and campaign activity.
- **Stack**: JavaScript, HTML5, Sass, Bootstrap, jQuery, Velocity.js, jsPDF, Adobe Creative Suite

Skills

Front-end: TypeScript, JavaScript ES6+, React, React Router, Next.js, Remix, Vue.js, Nuxt, Web Components, Lit, Pinia, Vite, Tailwind CSS, Material UI, styled-components, Sass, Radix Vue, Three.js, React Three Fiber, TresJS, Motion, GSAP, Zod, i18n (next-intl)
Testing & quality: Vitest, Jest, Testing Library, Playwright, Storybook, code review, CI with GitHub Actions
Front-end Engineering: Front-end architecture, component design, design systems, state management, REST API integration, performance optimisation, accessibility, responsive UI, debugging, legacy modernisation
Agentic Development: Cursor, Claude Code, MCP, AI-assisted code generation, refactoring and review
Back-end: Node.js, Express, Hono, PostgreSQL, Prisma, Stripe, WebSockets / Socket.IO, PHP, Razor (CSHTML), REST APIs, CLI environments
Tools & DevOps: Git, GitHub, GitHub Actions, Bitbucket, Jira, Docker, Turborepo, Biome, ESLint, Prettier, Vercel, Netlify, Cloudflare, Heroku, CI/CD, self-hosted environments
CMS: Storyblok, Contentful, WordPress, Sanity, Strapi
Design & UX: Figma, Sketch, Adobe Creative Suite (Photoshop, Illustrator)

Languages & Education

Polish - Native, English - Fluent
Technical School of Communication - Gdańsk, Poland, Sep 2011 - Jun 2015. Profile: IT Specialist - http://www.zsl.gda.pl
